Dear Friends,

I am interested in developing a new course offering at Duquesne University [undergraduate/graduate] which would be entitled "Biodiversity". This would be a science course which would include lectures, laboratory sessions along with field work.

Is there presently such a course being offered at any of our colleges/universities in the state?

Please advise,

Edward F. Schroth
Adjunct Faculty

The Pennsylvania Biodiversity Listserv encourages open discussion about biodiversity issues in the state. It is hosted by the Allegheny Institute of Natural History, University of Pittsburgh-Bradford and is moderated by the Pennsylvania Biodiversity Partnership. The opinions expressed in messages are those of the authors and NOT the Pennsylvania Biodiversity Partnership.
