Subject: PABIODIV: PNHP positions available

1. Central Data Manager: Harrisburg, PA
2. Environmental Review Specialists-2 positions: Harrisburg, PA

CONSERVATION: DATA & GIS MANAGEMENT (Harrisburg, PA)

The Western Pennsylvania Conservancy, in conjunction with the Pennsylvania Department of Conservation and Natural Resources, is seeking a skilled professional to plan and carry out comprehensive data management tasks. The Central Data Manager for the Pennsylvania Natural Heritage Program (PNHP) will be responsible for the maintenance of a custom GIS-based data system (Biotics) which houses locations of rare species and natural communities in Pennsylvania. This information is linked to a number of web applications, including an environmental review search interface used by the public. The position will be based in Harrisburg, PA.

The ideal candidate will have at least a 4-year degree in biological sciences, geography, computer science or a related field and at least one year's professional experience. Must have extensive knowledge of GIS and database management systems, preferably in two or more of the following: ArcGIS/ArcView 3.x, Oracle, ArcIMS, and MS Access. Must have good organizational skills, with meticulous attention to detail. If you are interested in this position, please send a letter, resume, and salary requirements by August 25 to:

ENVIRONMENTAL REVIEW SPECIALIST - Pennsylvania Natural Heritage Program (2 positions)

The Western Pennsylvania Conservancy, in conjunction with the Pennsylvania Department of Conservation and Natural Resources Bureau of Forestry, is seeking two skilled professionals with botanical and conservation expertise to review development projects that have the potential to impact native plants of special concern or related habitats, and to assist with other conservation initiatives. The positions will be based in Harrisburg, PA.

Candidates should have a 4-year degree in botany, biology, ecology, natural resources, or environmental science or a related field; Master's degree preferred. Good client service skills on telephone and in person are required. Experience with Geographic Information Systems, a commitment to conservation goals and familiarity with Pennsylvania's ecology is preferred. We offer a competitive salary and excellent benefits package. We will begin reviewing applications on August 31. If you are interested in this position, please send a letter, resume, and salary requirements to:
